Company

GACHI International Co., Ltd

About Us

회사소개

GACHI International creates a new field with the core values of globalization, challenge, and imagination.

GACHI takes on various challenges by discovering new products and cooperating with overseas partners in response to changes in the domestic and international business environment. In addition, our eco-friendly packaging material business introduces leading companies' eco-friendly products to

the domestic market. We focus on developing sustainable packaging materials while striving to provide excellent services to our customers. We are also developing platforms and establishing overseas branches to enhance the convenience of domestic and foreign customers.

경영이념

Philosophy

We're your
Global Sourcing Partner

01 Challenge

We will provide our customers with new experiences and value through market-leading technological and management innovation. Our company is not afraid of new challenges and is driven by a passion for achieving success.

02 Happiness

Our continuous growth is based on pursuing the happiness of all stakeholders, including our customers, employees, partners, and local communities. We are committed to customer satisfaction, and all members of our company work together toward this unified goal.

03 Imagination

We seek to enhance our market competitiveness by acquiring new knowledge, technology, and skills through in-house training. We foster a culture of endless creativity that is not bound by existing practices, and we constantly explore and develop new methods.

Service

GACHI's Services

GACHI's Strengths

(주)가치인터내셔널 특징점

Electronic parts

Reliable Delivery Time

With our worldwide procurement network, we offer a wide range of products that meet your needs at reasonable prices and ensure timely delivery.

Provides the Latest Information on Electronic Parts

We provide up-to-date information on electronic parts, including PCN information, EOL notifications, and alternative products. We also strive to reduce unit costs through market analysis.

Inventory Management

Our strict sourcing inspection and 'GACHI' warehousing and shipping system enable us to quickly respond to any issues that may arise. We maintain inventory in accordance with industry quality standards.

Small LOT Provision Service

We offer small quantity services for various products, including samples, new developments, and additional orders from partners, to meet your needs.

Package MRO

Increased Work Efficiency Through Total Purchasing Agency

We provide a total purchasing agency service for various packaging and promotional products through our extensive production network. With our service, you can easily compare the products and materials you want, and urgent quotations are provided within 24 hours.

Flexible Quality Control Through Factory Direct Sales

We work closely with production plants to ensure easy quality control and immediate response when issues arise with delivered products. For domestically produced products, we can provide samples before proceeding with ready-made products. As an intermediary, we coordinate delivery dates and requests, and provide support services such as inventory management.

Competitive Prices

We offer the best price by comparing estimates through contracts with multiple production processes.

Product and Idea Suggestions

We offer consultation services from the planning stage and actively propose eco-friendly products such as paper buffer materials, paper tape, wing delivery boxes, corn starch buffers, and FSC paper.

품질보증

Quality

GACHI International ensures 100% regular inventory supply and logistics management for reliable product delivery through strict lot management and customer channel sharing.

Regular Item Handling

—

We deliver only 100% inspected and certified regular stock.

Warehousing and Shipping System

—

Our inventory management system includes history management for accuracy and efficiency.

Parts Storage Standards

—

Temperature Control : 20°C~25°C

Humidity Control : 25%~50% ±5%

효율적인 구매 관리

Easy Check

GACHI International deals with active & passive electronic parts, as well as industrial parts such as harnesses and processing parts. With GACHI, you can streamline work time and manage tasks efficiently through our all-in-one solution that includes scheduling, production, settlement and accounting.

Handling Items

We handle a wide range of industry parts, including electronic components, harnesses, and machining parts.

Integrated Management

Our simplified supply channel offers integrated management of ordering, production delivery, and settlement management.

Increase Work Efficiency

Our total solution system enhances the work efficiency of the person in charge and simplifies time management

고객맞춤 Customized

We ensure quick response to customer inquiries and provide reliable information from trusted companies, including alternative product offers, sample shipments, and PCN information with EOL.

Rapid Response

Our services offer prompt response to customer inquiries, providing formal quotations within 3 days, and up-to-date information.

Substitute Offer

We provide replacement products and relevant information in the event of production delivery delays or EOL of industrial parts.

Provide Samples

Samples are available upon request during product development (only when mass production is confirmed.)

Provide Information

We offer inventory information from markets around the world in the case of discontinued products.

패키지 서비스

Package MRO

GACHI International offers quality packaging and promotional materials, working with production plants for reliable inspection and data services. We provide direct delivery, saving you time, and also offer overseas product sourcing.

High Quality Production

We collaborate with domestic and foreign production plants to manufacture high-quality products.

Product Suggestions

We offer product proposals, printing supervision services, and samples (for ready-made products only)

International Trade

We provide convenience through our product sourcing agency services, including packaging services.

Business

GACHI's Business

사업영역

Our Business

GACHI International offers **efficient purchasing agency services** to customers of all sizes, saving them time.

01 INDUSTRY PARTS

We collaborate with about 200 authorized distributors, global partners, and professional mold makers in Japan, Taiwan, and Korea to enable mass production orders and urgent delivery.

02 PACKAGE MRO

Our OEM business cooperation with domestic paper and poly plastic production factories enables us to provide overall packaging, resulting in increased purchasing efficiency and decreased unit prices.

03 TRADE

We provide various products and import/export services to overseas companies in South Korea, Japan, the US, and Singapore.

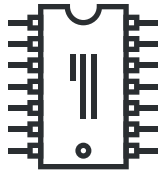

Manufacturers with GACHI

We also work with **various manufacturers** and continuously update our electronic device and electric parts information.
